

HAUNTED MANSION:

Print as a 24" x 36" engineer blueprint in black and white. Cut out.
Get a box (we get the medium box from Home Depot) and cut off the bottom. Tape the top and spray paint black (optional).
Glue the mansion to the box (we use adhesive spray).
Cut out the five doors.
Have fun trying to roll the eyeballs (found at the Dollar Store) through the doors!
